2020 Competition

▶ Details:

Due to the Covid 19 pandemic and closure of schools, the Northeast Region High School Art Show revised their competition format to recognize up to 5 students per region high school as selected by their school's art teachers, instead of a judged competition by category. School selections follow...

The background features a solid lime green field on the left, which transitions into a series of overlapping, semi-transparent green triangles and polygons on the right. These shapes are layered, creating a sense of depth and movement. The colors range from a bright lime green to a darker forest green. The overall composition is modern and minimalist.
